6. IFA Broadband Services

6.1 IFA Telecom Agents will provide an estimated timeline for supply and installation of your broadband service. We will use our best endeavours to adhere to this timeline, but delays can occur. Our Customer Service Team will provide updates in the event of a delay.

6.2 IFA Telecom provides broadband subject to the limitations of the Access Provider. The published speed of our products are the maximum possible speeds attainable for those products.

6.3 IFA Telecom cannot guarantee that any or all our broadband products will be available. Limitations to the service may apply depending on a customer's geographical location or the presence of any physical signal barriers. A prequalification process will take place before the broadband offer can be confirmed.

6.4 IFA Telecom cannot guarantee the speed of the service. The maximum possible speed may not be available due to the distance from your home to the exchange, damage to the physical equipment carrying your signal, congestion to the Access Provider's infrastructure, the number of devices in your

home simultaneously using the service, internal wiring damage, physical barriers to wireless signals in the home, or faulty equipment.

6.5 IFA Telecom cannot guarantee the suitability of the products for the applications the customer intends. Some applications require high uninterrupted throughput rates for complete functionality and such rates may not always be available. IFA Telecom will not be liable for loss or damage to the customer caused by a diminished or unavailable broadband service.

6.6 The maximum broadband speeds possible are those speeds as advised to the customer and/or on the IFA Telecom Rate Sheet. The normally available speed should be generally no less than 70% of the maximum, i.e. for an 8Mb/s download speed, the normally available throughput rate should be greater than 5.6Mb/s. For a 1 Mb/s upload product the normally available throughput rate should be greater than 700Kb/s.

6.6.1 Normally available throughput rates for fibre products are generally better as they do not rely entirely (FTTC) or at all (FTTH) on the telephone infrastructure. Such normally available rates are generally no less than 80% of the maximum advised rate e.g. for a 300 Mb/s product the normally available throughput rate should be no less than 240 Mb/s.

6.6.2 IFA Customer Service Team will use their best endeavours to diagnose and resolve customer broadband queries or faults but are subject to the limitations of the Access Provider.

7. Broadband Voice Service/VOIP

7.1 IFA Telecom's VOIP service uses the broadband line to provide traditional telephony-type service. It is thus limited and potentially unavailable in the event of a diminished or unavailable broadband service. It is also dependent on the electricity service (unlike the standard fixed line telephone service). Customers should always have an alternative telephone service (such as a mobile telephone) available in the event of emergencies. The emergency services may not be able to identify the customer's location, as is possible with the standard landline service, so the customer should always inform any emergency service of their location, if in need of assistance.

7.2 Some telephone numbers may be inaccessible over the VOIP service, or the service may be subject to interruptions or delays caused by data packet loss. Some services traditionally using the standard fixed line telephone network such as alarm monitoring may not function over VOIP. The customer is advised to check in advance before employing the service. IFA Telecom will not be liable for any claim, loss or damage caused by the limitations or interruptions to the service.

7.3 All users of the VOIP service in the home should be made aware of the potential limitations of the service.

7.4 In common with standard broadband usage VOIP involves the sending of electronic data over a public infrastructure and is thus potentially susceptible to hacking or interference. IFA Telecom, through the Access Provider provides security measures but cannot guarantee the security of this or other data transmitted over the network.

8. Customer Care

8.1 IFA Telecom Customer Care number is 0818 924 851.

8.2 IFA Telecom Customer Care Policy is set out in the IFA Telecom Code of Practice, available on ifatelecom.ie.

8.3 The customer shall contact IFA Telecom if it wants to alter any aspect of the service, including, but without limiting the generality of the foregoing, the addition of a telephone line, upgrades to a telephone line, change in the Call Management Services and changes in the customer's premises where the service is provided.

8.4 The customer shall raise any complaints in relation to the service using the complaints procedure set out in the Code of Practice.

9. Payment

9.1 The customer will receive one bill from IFA Telecom for all charges incurred by the customer in respect of this service. The customer will continue to be billed separately by its Access Provider for any Single Billing Product Exclusions. The charges will be paid as follows: – Line rental and equipment rental charges monthly or two monthly in advance depending on bill frequency.

9.2 IFA Telecom's tariffs for the service are stated in the Rate sheet which forms part of this Agreement. IFA Telecom shall provide a bill in physical or electronic form.

9.3 All sums due to IFA Telecom shall be paid in full by the customer by the due date for payment set out in the IFA Telecom invoice. Bills can be paid by Direct Debit, Credit or Debit Card, Post Office, Cheque or online. Some packages provided by IFA Telecom are set at such rates on the proviso that the customer signs and maintains a direct debit. Failure to provide and maintain a direct debit facility in such cases will entail additional charges.

9.4 Should the customer disagree with any charges shown on the customer's bill, the customer is requested to lodge a complaint in accordance with IFA Telecom's Code of Practice, prior to the due date for payment. Notwithstanding any complaint, all invoiced amounts shall be paid on the invoice due date, pending the outcome of the complaint's procedure. If, following the complaints procedure, it is established that the charges on any invoice are incorrect, IFA Telecom shall credit any overpayment to the customer's account.

9.5 Save in the case of manifest error by IFA Telecom, all charges shall be calculated by reference to the data recorded or logged by IFA Telecom. IFA Telecom's determination in respect thereof is final.

9.6 As some usage takes longer to rate, notwithstanding any other clause herein, the customer may, at any time, be billed for charges incurred in a prior billing period.

9.7 A customer's eligibility under the DSFA Scheme shall be indicated by the customer when applying for the service. In the event that it is determined that the customer is not, or has not been, eligible for the DSFA Scheme, the customer acknowledges and agrees that, without prejudice to any other rights or remedies that IFA Telecom may have under this Agreement or otherwise, any DSFA Scheme credits improperly awarded to the customer may be recouped by IFA Telecom in a subsequent invoice from IFA Telecom to the customer whether during or after the term of this Agreement.

10. Use of Service

10.1 The customer may use the service for consumer, domestic and/or personal purposes.

10.2 The customer undertakes not to use or permit others to use the service or the equipment: (i) for business purposes to sell on or supply the service to anyone on a commercial basis; (ii) for any improper, immoral or unlawful purpose, nor cause any nuisance by the use of the service; in any way that may cause degradation of service levels to other customers as determined by IFA Telecom or put the Network at risk; (iii) to send unsolicited commercial communications or promotional material; (iv) for the communication, transmission, publication, transmission, distribution or dissemination of any material which is, may be or is intended to be a hoax or is of a defamatory, offensive, abusive, obscene, indecent or menacing nature or in breach of any intellectual property right; (v) for the processing of automated or manual "personal data" as defined in the Data Protection Legislation and in any event, if used for such purpose in contravention of this Agreement, to delete any such personal data prior to returning the equipment to IFA Telecom; or (vi) otherwise in any manner which does not comply with the terms of any applicable law, legislation, regulation, direction or any licence or authorisation applicable to the customer or any instructions given by IFA Telecom from time to time.

10.3 The customer hereby agrees to avail of the service subject to the provisions of the Telecommunications Scheme in force for the time being and the provisions of any legislation, regulations, byelaws or codes of practice applicable to such use. 10.7 The customer shall indemnify and hold IFA Telecom harmless against all liabilities, claims, damages, losses, expenses and proceedings howsoever arising from or in any way connected with the use of the service and/or the equipment and/or any breach of this clause 7 by the customer.

11. Liability

11.1 IFA Telecom shall use reasonable endeavours to ensure that the Service is available for use by the customer in accordance with the standards for the time being relating to the service as set out in IFA Telecom's service literature, but shall not be liable for any delay, failure, interruption, or deterioration therein, howsoever arising.

11.4.2 the acts and omissions of other Telecommunication operators (including the access provider);
or

11.6 Without prejudice to the exclusions of liability set out in this clause, IFA Telecom's entire aggregate liability to the customer or any third party for any and all claims, howsoever arising out of or in connection with this agreement and whether under contract, tort, statute or otherwise, shall not exceed the lesser of (i) the total charges paid by the customer to IFA Telecom in the 12 months prior to the date of the last event giving rise to such claim(s) and (ii) €1,000, provided that this shall not operate to exclude any minimum liability imposed by statute.

11.7 This Clause 11 shall continue to apply notwithstanding termination of this Agreement for any reason whatsoever or howsoever arising.

11.8 For the avoidance of doubt, any limitation or exclusion of liability under these terms and conditions shall only be to the extent permitted by law. Nothing in this Agreement shall limit or exclude IFA Telecom's liability to the customer for personal injury or death.

12. Customer Right of Cancellation

12.1 The customer shall have the right to cancel the service without penalty (subject to clause 12.2 below) within fourteen (14) days of placing an order with IFA Telecom ("Cooling-off Period") by giving IFA Telecom notice in writing during the Cooling-off Period that it wishes to (i) disconnect its line; or (ii) transfer to the Access Provider or another operator (in which case it must also notify the Access Provider or other operator during the Cooling-off Period).
